

Access to the Adobe Creative Cloud package – account

Additionally, you'll need:

- > Internet connection

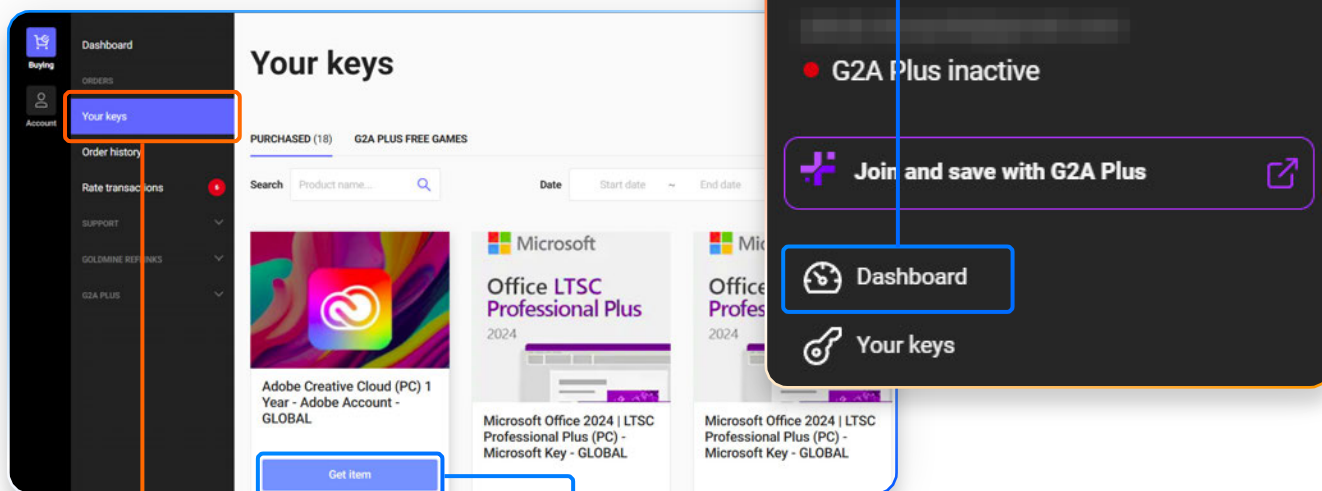

Before we start working with the tools included in Adobe Creative Cloud, we must gain access to an account that will allow us to complete verification and install any tools included in the package.

Step 1

Gaining access to the Adobe Creative Cloud 2021 account on the G2A.COM platform

- 1 After purchasing the Adobe Creative Cloud package – account, go to your dashboard.

Click on  and then on 

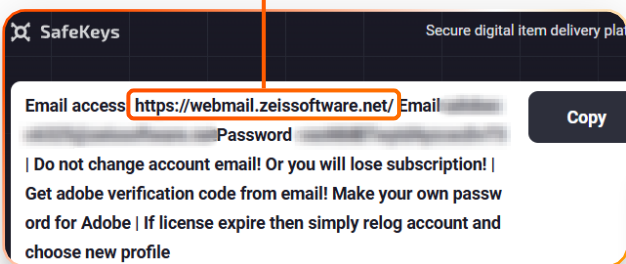

Go to the  **section**, hover the cursor over the purchased package and **click on** 

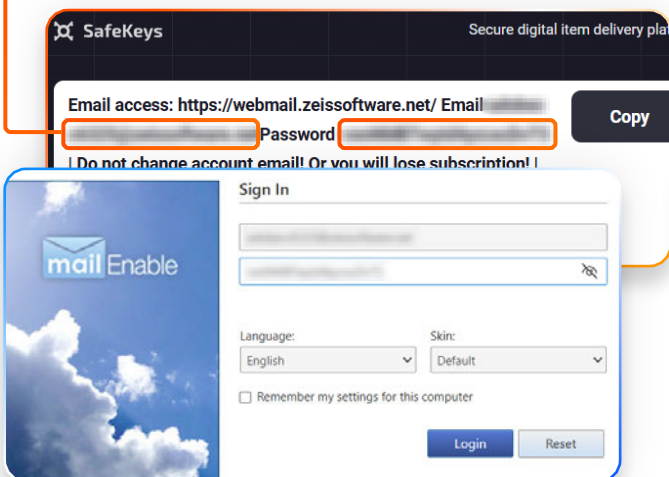

- 2 Select option **Display item**. All the information needed to access the package account will be displayed.

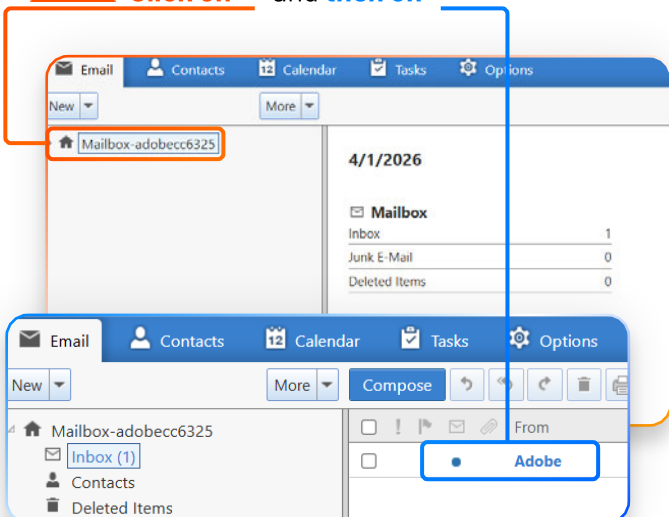

- 3** Select the **▼ address** and right-click with the mouse or right-click on your touchpad and choose option `Go to https://webmail.zeisssoftware.net/`

- 4** You will be redirected to a new page. Once again, we switch to the tab with the details of our purchase and sequentially **copy the e-mail address and password ▼**. Paste them into the appropriate fields and click on **Login**

- 5** You will be logged into the e-mail inbox. **Click on ▼** and **then on ▼**

- 6** The content of the e-mail will be displayed, which will guide us further. To start working with the package, **click on ▼**

Your admin at **Butter Web** has given you access to **Creative Cloud All Apps**

To start using Creative Cloud All Apps, use **[redacted]** to sign in to Adobe by clicking on the **Get Started** button below and complete your profile. If you already have an Adobe account, please sign out and sign back in to get access.

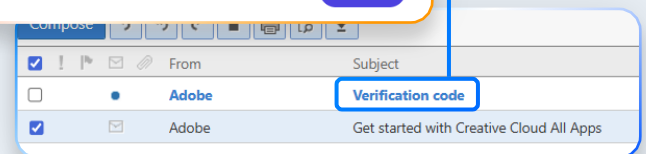

Get started

- 7** You will be redirected to the Adobe company identity authorization page. **Click on ▼**. Another e-mail with a **verification code ▼** will be sent to the **inbox we logged into in step 5**.

Verify your identity

We need some additional information, but first we need to confirm your identity.

Continue

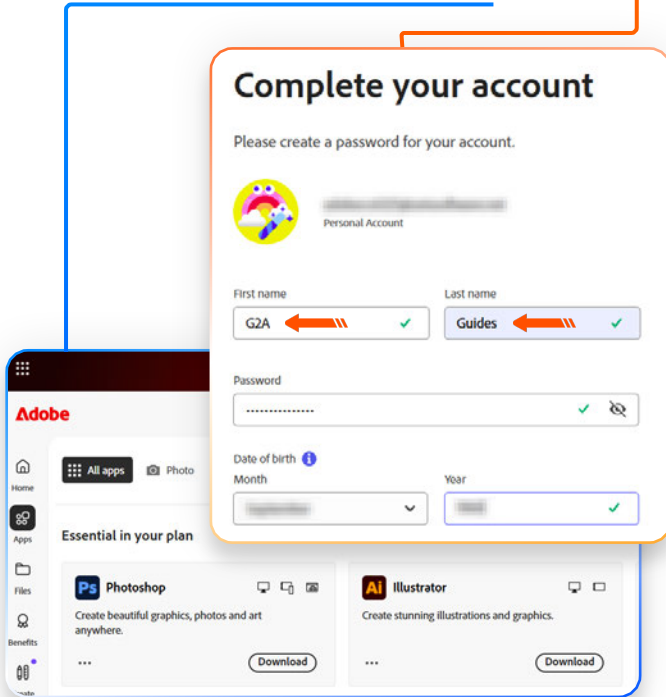

- 8** Open the e-mail and remember or **copy the code ▼**, then reopen the tab with the Adobe authorization page and **enter the code received in the e-mail**.

Adobe

Your verification code is:

126277

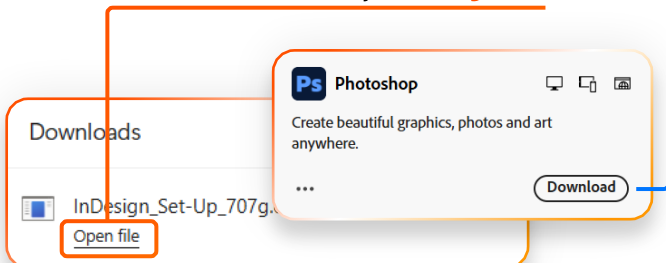

- 9 After successful verification, you must **provide the basic data** and proceed forward. You will be redirected to the main **Adobe Creative Cloud dashboard**.

Step 2

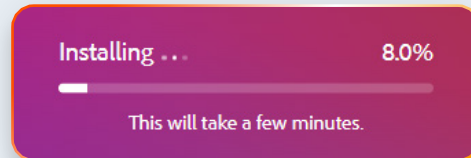

Installing Adobe Creative Cloud package applications on a computer

- 1 To start installing any application on our computer, simply **click the button** located next to the package tools. The process of downloading the installation file will begin. Once finished, we run it by **clicking on**

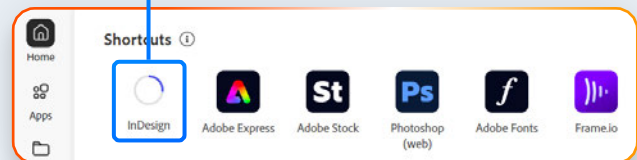

- 2 In the next window, we will **receive a message**, proceed by selecting **Continue**

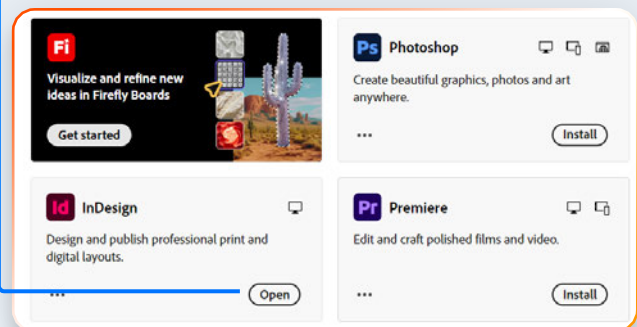

- 3 Next, click on **Continue** and confirm the start of the program installation. The download and installation of the **selected application will begin**.

- 4 After completion, the **Adobe Creative Cloud Desktop panel** will be launched. Our application will continue **downloading in the background**.

- 5 After the installation of the InDesign application, you can launch it by **clicking on the icon**. In the same way, you can install additional programs such as **Photoshop, Acrobat, or Premiere**.

Need to know

Changes made to the account after the purchase – e.g., *adding or changing the payment method or the region* – **may block the account** or make some features, like family sharing, unavailable. If your account stops working before the ending period (1 year) **contact the seller** on the G2A.COM platform and ask them to resolve the issue.
