

# Installation of Office 2019 Professional

## Additionally, you'll need:

- > Fast internet connection

Before you start working with Office 2019, you must obtain the product key from the G2A.COM platform. In the next step, we will learn how to download Office, install it, and activate it.

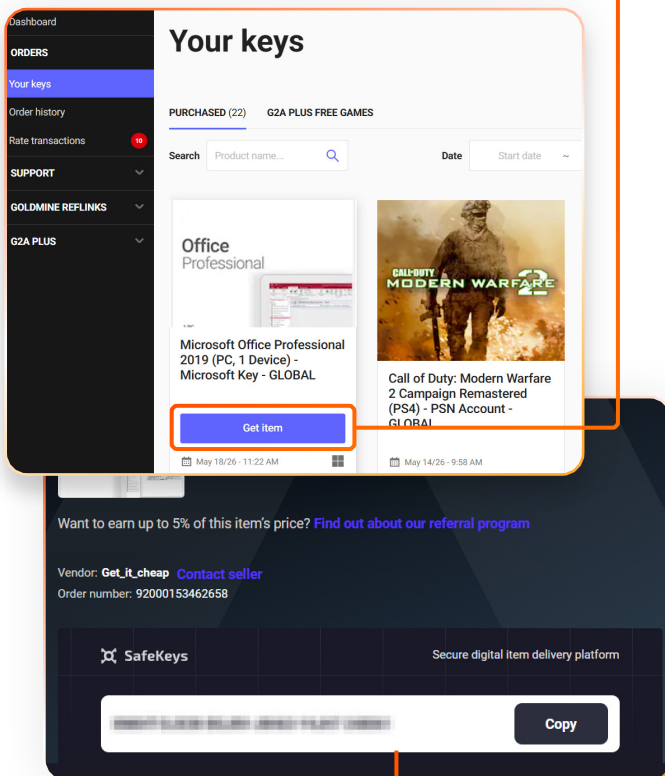

### Step 1

## Finding the purchased Office 2021 key on the G2A.COM platform

1

Sign in to your account on G2A.COM.

Go to **Dashboard** and **click** **Display item**

2

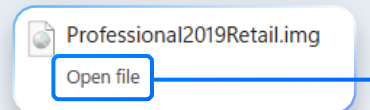

The Office 2019 key will be displayed.

### Step 2

## Installing Office 2019

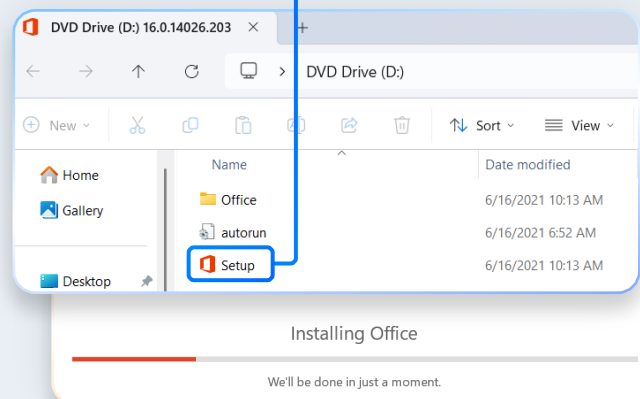

1

Before you start working with the suite, you must download the installation file and enter the key by **clicking LINK**. Run the downloaded file

1

In the new window, **run the installation file**. The installation of the Office suite will begin.

1

After the installation is complete, **click**

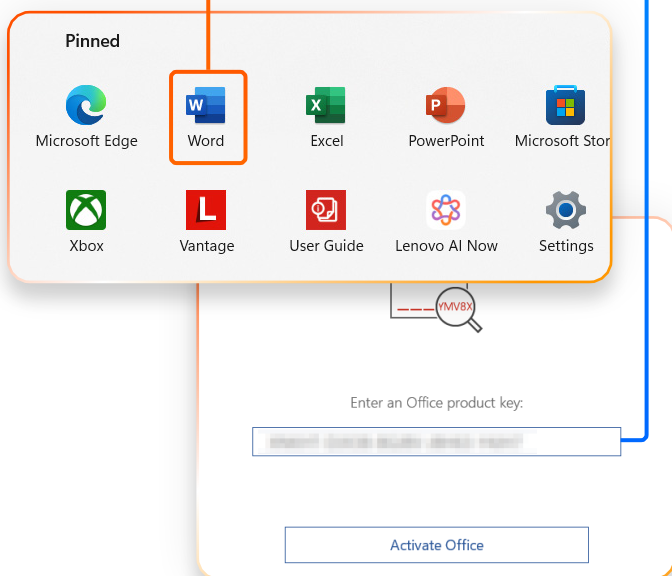

You're all set! Office is installed now  
Click Start to view your apps.

Close

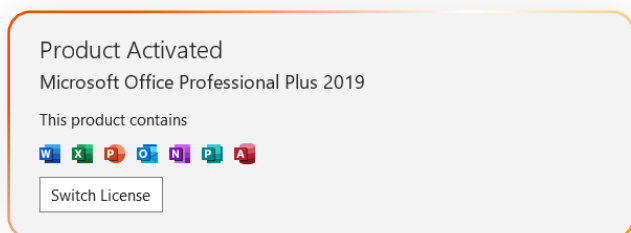

## Step 3

## Activating Office 2019

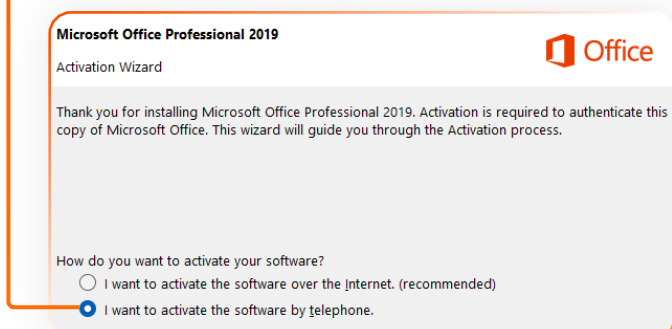

**1** Launch any Office 2019 application, for example ▼. A window will automatically appear where you must enter the product key and finally select **Activate Office**

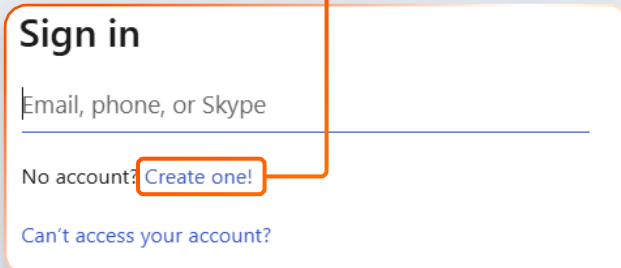

**2** The Office 2019 suite should be activated.

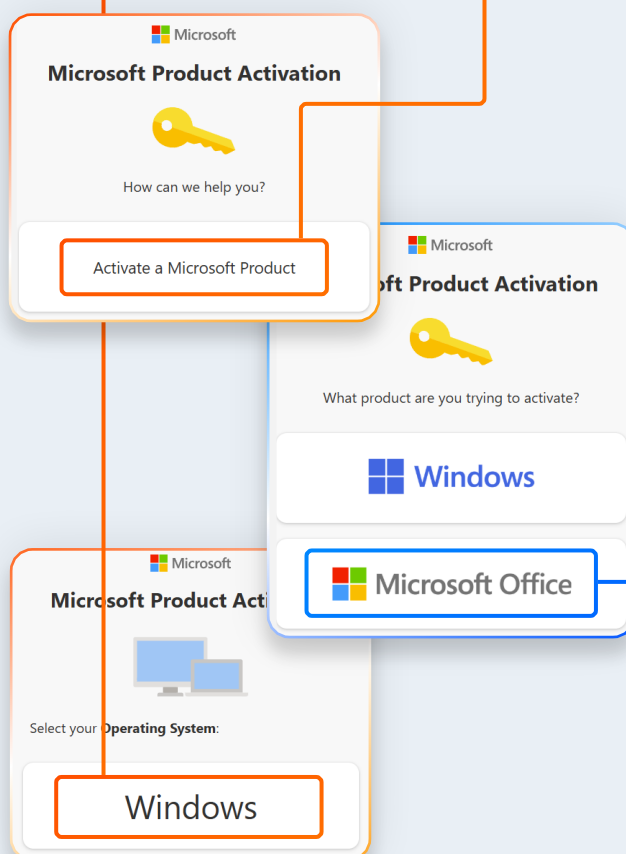

**3** If the activation failed, in the window select ▼ and continue. Do not close the window; go to your web browser and open [LINK](#).

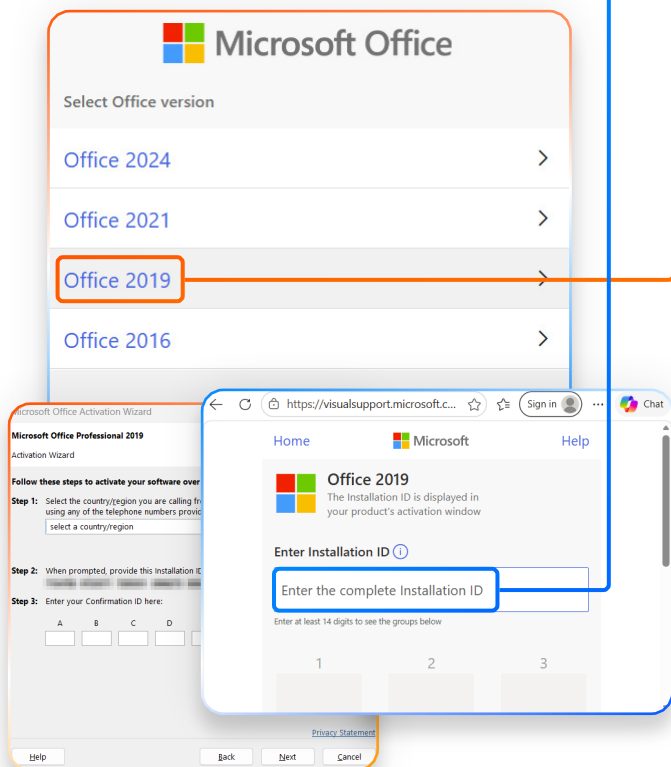

**4** Click **Let's Get Started** and then **Start**. In the next window, complete the CAPTCHA verification. Then select **Submit**. Next, click **Proceed to Sign In** and sign in to your Microsoft service account. **If you do not have an account, you must create one by selecting ▼**

**5** In the next window, select ▼ and then ►. Indicate the operating system (in this case ▼)

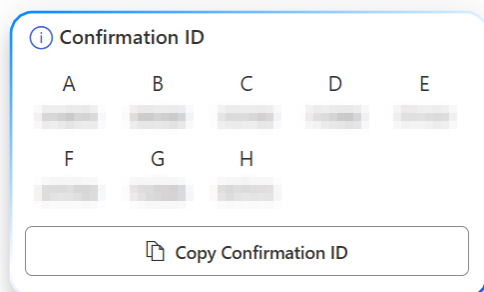

- 6** Indicate the Office suite version ▾. In the empty field, **enter the installation ID** (make sure you copied the code correctly) and click **Submit**

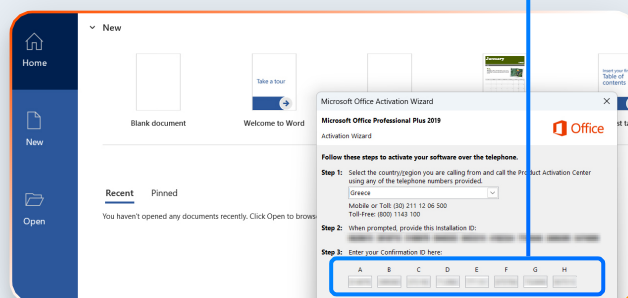

- 7** You will receive a prompt asking how many computers the suite has been installed.

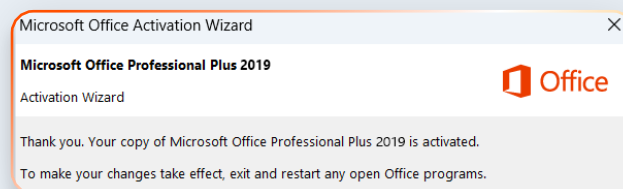

- 8** After a moment, **a confirmation number will be displayed**. Copy it by clicking on **Next** (it is also worth writing it down on piece of paper) and select **Continue**

- 9** Return to the **Office 2019 activation window**, enter or **paste the code** ▾, and click on **Next**

- 10** The Office 2019 suite has been successfully activated. To save the changes, click on **Close**, close the Office application (in our case, Word), and **restart it**.

- 11** Make sure that Office 2019 has been activated. To do this, **click on option Account**. The activation **information will be visible** ▾.

## Need to know

When entering the product key, carefully check that it has been entered correctly. If a message appears stating that the key has already been used, don't worry. Contact the seller on the G2A.COM platform and ask them to resolve the issue.
